

6331

- 3 - 6 bed rows
- 3 - 8" bed height
- Rigid frame
- Adjustable bed top

MULTI-PURPOSE

- Form new beds
- Finish primary beds
- Cultivate/reshape beds

Model 6331 Bed Shaper is a multi-row version of single-bed Model 4531. Pull with 60 to 125 HP tractors, depending on bed height and number of beds. 3-point hitch mounted.

Toolbar width and shaper pan width is made-to-order to match your bed row spacing. Add Bed Height Package to complete set-up for your raised bed system.

Strong and versatile welded 4-bar frame with 2-1/2" square toolbars

Category-2 hitch is quick hitch compatible

Furrow shanks with wings lead the shaper pan to dig furrows. Furrow shanks feature replaceable sweeps.

Equip with shaping disks to fill bed centers on wider 60-72" beds. 16" disks feature heavy-duty tapered bearing hubs.

Equip bed shaper with S-tines for light tillage of pre-made beds.

Shear bolt safety feature on all furrow shanks
