

FEATURES

3-point hitch is quick-hitch compatible

6x6 toolbar

rugged toolbar frame

shown with optional double carriage

COVERING DISKS w/ DEPTH CONTROL

Covering disks offer simplicity of adjustment with consistent mulch coverage that's second to none. No tricky disk angles. No disk hopping or gouging

LOW-CLEARANCE ROLL CARRIAGES
minimize effects in windy weather

FLOATATION

Each mulch layer frame hinges behind the bed shaper to follow ground contour

SHAPING DISKS
a standard feature with rugged tapered bearing hubs

FURROW SHANKS
include furrow wings and shear-bolt safety feature

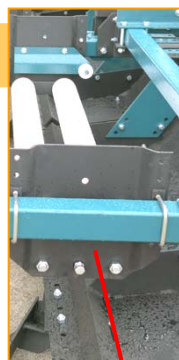

WALK-UP REAR ACCESS

Offset mulch layer units allow close row spacing. Set-up for wide or narrow furrows

Options

Premium Drip Tape Applicators feature automatic roll brakes

Single carriages (one per bed) are standard equipment - add double carriages for non-stop operation on longer rows
