Part numbers are itemized on price list

- 121460 Poly Lining**
for 1912
- 123560 Crowned Poly Lining**
for 1912
- 122772 Poly Lining**
for 2212 - 4612
- 124872 Crowned Poly Lining**
for 2212 - 4612

Helps prevent soil from sticking to bottom of shaper pan, particularly in heavier or wetter soils.

- 17281A Crowned Shaper Pan**
for 1912
- 17316A Crowned Shaper Pan**
for 2212 - 4612

Primary benefit is to ensure water drains off of beds covered with plastic mulch. Opinions vary on other purposes. The 'A' part numbers replace the standard flat shaper pan at the factory. The crowned pan part is available to retro-fit.

- 20394 Row Markers, 5-ft**
for 1912 - 2212
- 20396 Row Markers, 7-ft**
for 1912 - 2212
- 25394 Row Markers, 5-ft**
for 4612
- 25394 Row Markers, 7-ft**
for 4612

Beds can be spaced on 10-12 ft centers (for example) to provide drive-up access between beds. Use row markers for accurate spacing. Manually lowered and raised.

- 20451 Rear Gauge Wheels**
for 2212

Standard Equipment on 4612

Transfer mulch layer toolbar weight to rear wheels. Tuck wheels then float. Makes a great mulch layer exceptional.

- 25462 Double Roll Carriage**
for 4612 only

Start new rolls on long rows without stopping.

- 20160 Rear Shields**
for 1912 - 2212

- 25160 Rear Shields**
for 4612

If soil is rough or chunky, block excess soil from spilling on top of bed... beauty is in the eye of the beholder. Normally, our equipment is too good for this.

- 20596 Guide Disk Asby**
for 1912 - 2212

- 25596 Guide Disk Asby**
for 4612

Use on hillsides to control slide. (2) needed.
