

User-friendly features

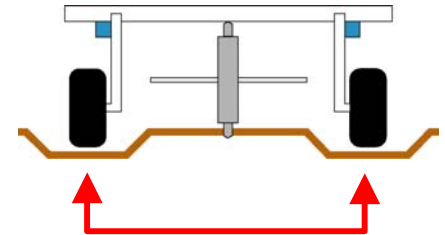

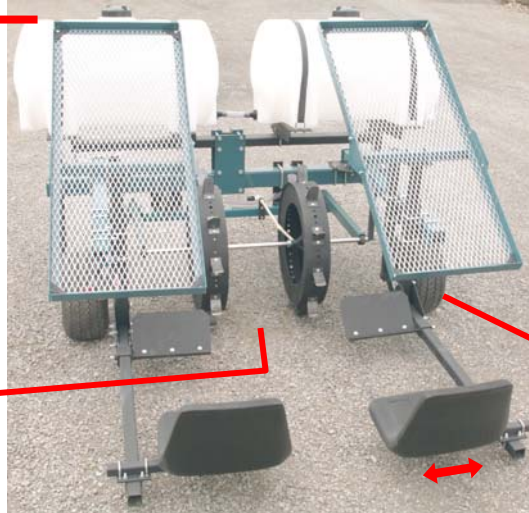

The modular bolt-together assembly provides on-the-go customization
Maximize efficiency and comfort to do your best work

Low-profile tanks

Best visibility over-top tanks
Fill caps also easier to reach from the ground

Open rear access

Adjustable frame - gauge wheel spacing

Align planter gauge wheels with tractor wheels, which accommodates narrow bed furrows, wider plastic mulch and/or use of smaller tractors. Gauge wheels can also track for precision planting

Tanks fully drain for easy cleaning
Optional quick-fill

Water controls feature separate on-off and flow valves

Adjustable toolbar height

Accommodate raised beds and various water wheels sizes

Rugged gauge wheels carry full weight of planter

Fully adjustable racks

Fully adjustable seats

More capacity

Stacking racks

Optional on Models 2216 and 2326, standard on 4526.
Adjustable spacing

Optional double seats

Add a 3rd or 4th seat to plant 3 or 4 rows. Also speed-plant 2-rows. Available for 2216, 2326, 4526

Specialty

The Garlic Special includes no tank or plumbing. Install up to 6 water wheels or dry wheels

Rear plant trays

Multi-purpose
use seats and racks to pick and pack your crop at harvest time
