

*Garlic
Special*

Customized for garlic or onions

**Customize plant spacing
and row spacing**

**Adjustable planter
frame width**

This Puncher is a complete Dry Wheel Planter with racks and seats. Set-up planter for your bed width and row system. Plant through plastic mulch or on bare ground.

Maximum row spacing is 36" from first row to last row. Maximum 7" spacing for 6 rows, maximum 9" spacing for 5 rows, maximum 12" spacing for 4 rows, etc. A wider water wheel frame and wheel shaft is available. Minimum row spacing is 5".

Model 2216 Water Wheel Planter is fully equipped with a water tank and plumbing to use with water wheels.

*Many wheel choices available
for close plant spacing, starting at 4".
Garlic spacing is typically 6".
Removable punches allow wheels to
be used for other crops.*
