

3117-M

Mulch lifter for the fresh-market farm

Model 3117-M is a bare-bones Mulch Lifter for an exceptional price. Plastic removal is generally not a high power job and this model makes quick work of an essential plastic removal step with 30-45 HP tractors.

- Adjustable for 3 to 5-ft mulch width
- 3" square toolbars
- Category-1 hitch
- 45 PTO-HP rating / for 30-45 HP tractors

Multi-Purpose Toolbar

3 or 4-shank Chisel Plow

Disk Bedder

Beyond using a Mulch Lifter one day a year, maximize investment and put more machinery to work on the small farm by utilizing these attachments. See Model 2237-MC with toolbar features to set-up a cultivator or bed shaper.
