

## Multi-Tool Kits / Attachments

As illustrated with 3117-M and 5127-M, set-up additional machinery with the lifter toolbar. This is for mechanic-types that can trade money for time. Keep simple set-up diagrams and change-over time for most equipment tends to be under 30 minutes. As you progress, invest in additional toolbars to set-up dedicated machines.

**2108-PKM3**

**MotorWinder Package** – includes mounting & hoses for 3117-M

**2108-PKM4**

**MotorWinder Package** – incl mounting & hoses for 5217-M or 5337-M

Mount this stationary winder in the lifter to pull in material from the end of the field and roll it up. See Winders - Section 11 - for more description.
