

5520 7-shank

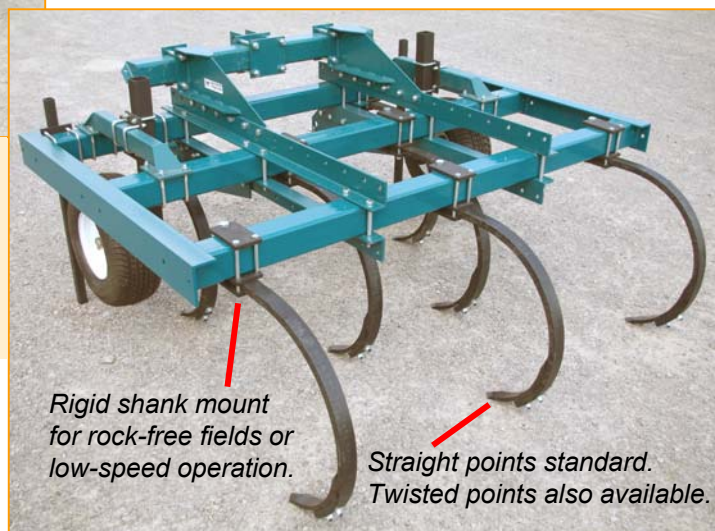

- 135 PTO-HP rating - for up to 135 HP tractors
- Category-2 / quick-hitch compatible
- 4" square toolbars
- Gauge wheels w/ 5-bolt trailer hubs

Model 5520 Chisel Plows are built for 7 to 9 shanks on tractors up to 135 PTO-HP. With 12" shank spacing, 7 shanks provide full-width tillage on tractors with up to 72" wheel spacing. Tractors with duals can utilize 5520 equipped with 9 shanks. If needed, a single shank can be removed for best tractor pull and working depth.

Rugged 1-piece frame for tractors up to 135 PTO-HP

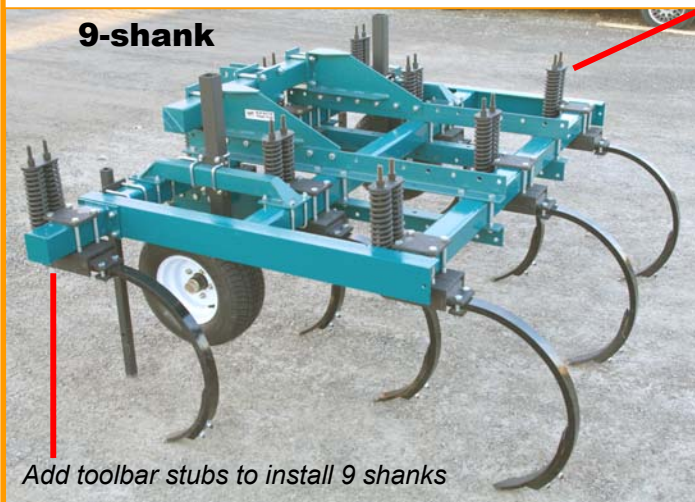

7 or 9 chisel shanks

THREE 4" square toolbars for maximum residue clearance

Rigid shank mount for rock-free fields or low-speed operation.

Straight points standard. Twisted points also available.

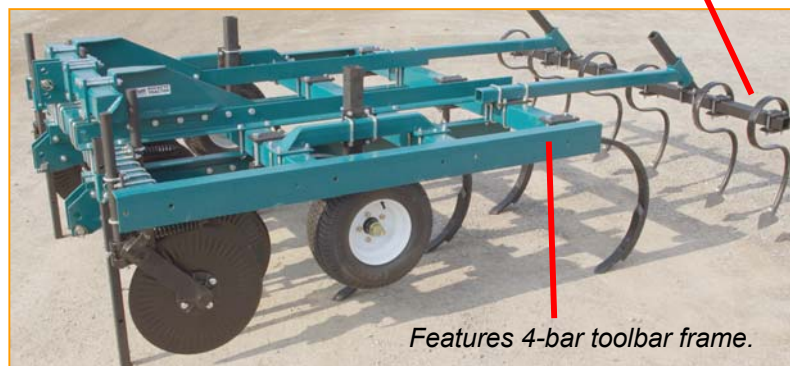

9-shank

Add toolbar stubs to install 9 shanks

Stiff spring-cushion mount for effective penetration and equipment protection.

Leveling attachments available for any model - please inquire.
