

Multi-Tool Kits

These attachment packages show basic ways to set-up different machines with the same toolbar. Mechanize on a budget or maximize investment if you question machinery used only one or two days a year. This is for mechanic-types that can trade money for time. Keep simple set-up diagrams and change-over time for most equipment tends to be under 30 minutes.

As you progress, invest in additional toolbars to set-up dedicated machines.

Toolbar Cultivators are essentially one large Multi-Tool Kit, with many Cultivator attachments that can be used to set-up different equipment. Additional attachments are listed for Mulch Lifters, Bed Shaper, Bed Lifters and Disk Bedders. Add as needed.

Part numbers are itemized on price list

Re-use hitch, toolbar frame, gauge wheels

Mulch Lifter / Bed Lifter Attachments

for 2360 - 2460 - 2370 - 2470

- Components as needed:*
