

Junior

model for compact tractors

Versatile for the small farm

Adjustable bed width

Expect filled and firmed raised beds with 25-35 HP. Model 1721-D features a compact frame with fully adjustable components to match your row crop system.

Furrow shanks and shaping disks are standard equipment and rugged for small farm service. Buckeye Bed Shapers pull straight with less HP.

- 4", 5 or 6" bed height
- Adjustable 24 to 48-inch bed top width
- Adjustable 16 to 30-inch furrow width
- Adjustable 48 to 60-inch total bed width
- 35 PTO-HP rating
- 3-point hitch mounted - Category-1

1321N-D Features an 8" narrower frame for narrow, compact tractors in hoopouses. Tell us what you need for special applications.
