

1912-D

Junior

model for compact tractors

Full-featured for small farms

This is a fully adjustable model for compact tractors up to 35 PTO-HP. Minimum 54" bed spacing for 48" mulch width. Add weight on front of the tractor if needed to lift it.

Additional attachments available for one-pass operation

- Changeable 4 to 6-inch bed height
- Adjustable 3 to 4-1/2 ft mulch width
- Adjustable 42 to 60-inch bed row spacing

- 14" shaping disks w/ ball bearing hubs
- 2" square toolbars
- 35 PTO-HP rating
- Category-1 hitch

Mulch roll simply sits and turns on carriage rollers
